SPOTIFY'S DATA & AI GOVERNANCE PROJECT

> Source.

360 min.

In this project, you'll take on the role of an AI and Data Governance Lead for Spotify, the leading music streaming service. Your task is to design a practical governance framework that ensures data quality, security, compliance, and responsible AI use while optimizing data across Spotify's global operations. This is a hands-on project that you should complete within 6 hours.

1. Project Overview

1.1. Objective

As an *AI and Data Governance Lead* for *Spotify*, design and pilot practical governance framework, y, ensuring compliance with GDPR, CCPA, PCI-DSS, and AI governance expectations, while improving data quality, model-readiness, and operational efficiency.

1.2. Key Deliverables

- Data & AI Governance Policy Document (Word/Google Doc)
- Organizational Roles & Responsibilities Outline (PowerPoint/Google Slides)
- Implementation Plan for Data & AI Governance (Word/Google Doc)
- Final Presentation to Stakeholders (PowerPoint/Google Slides)
- Supplemental Resources & Documents (Provided below
-

2. Project Steps

2.1. Step 1 - Understanding Spotify’s Data Landscape

Time

- 1 h.

Objective

- Assess Spotify’s current *data maturity level* and identify the key challenges.

Tasks

- *Data Maturity Assessment*: use the provided *Data Maturity Assessment Template* to analyze where *Spotify* stands on the data maturity scale.
- *Key Challenges Identification*: identify challenges like data silos, inconsistent data quality, unclear AI training-data lineage, and compliance risks, especially with global data handling.

Deliverable

- A brief report (1-2 pages) detailing Spotify's current data maturity level and key data and AI governance challenges.

Resources Provided

- Data Maturity Assessment Template (Word/Google Doc)
- Spotify Case Study Background (PDF)

2.2. Step 2 - Designing Spotify's Data & AI Governance Framework

Time

- 2 hours.

Objective

- Create a robust Data & AI Governance policy tailored to Spotify's needs.

Tasks

- Develop Governance Principles:
  - Use the Governance Principles Guide to outline key principles for data stewardship, quality, security, and approved AI use.
- GDPR and CCPA Compliance:
  - Integrate GDPR and CCPA requirements using the Compliance Checklist to ensure personal data is handled correctly.
- Roles & Responsibilities:
  - Define roles (e.g., Data Stewards, Data Protection Officers, Model Owners, AI Risk Owners) using the Roles Template.

Deliverable

- A Data & AI Governance Policy Document (2-3 pages).
- An organizational chart with roles and responsibilities (1 page).

Resources Provided

- Governance Principles Guide (PDF)
- Compliance Checklist (Excel/Google Sheets)
- Roles Template (PowerPoint/Google Slides)

2.3. Step 3: Implementing the Data & AI Governance Framework

Time

- 1.5 hours.

Objective

- Develop a step-by-step implementation plan.

Tasks

- Organizational Model:
  - Choose a model (Centralized, Decentralized, CoE) using the Organizational Models Overview.
- Technology & Tools:
  - Recommend tools (e.g., data cataloging, lineage, quality tools, model registry integration) using the Tech Tools Overview.
- Pilot Implementation:
  - Outline a pilot plan for a specific department or data set (e.g., user data, content metadata, recommendation training data).

Deliverable

- A detailed Implementation Plan (2-3 pages).

Resources Provided

- Organizational Models Overview (PDF)
- Tech Tools Overview (PDF)
- Pilot Implementation Template (Word/Google Doc)

2.4. Step 4: Final Presentation to Spotify's Executive and AI Leadership Team

Time

- 1.5 hours.

Objective

- Present the *Data & AI Governance* framework and its implementation plan to stakeholders.

Tasks

- Prepare the Presentation:
  - Use the Presentation Template to create a concise, engaging presentation summarizing your framework and implementation plan.
- Anticipate Questions:
  - Review the Executive Q&A Guide to prepare for potential questions.

Deliverable

- Final Presentation (5-10 slides in PowerPoint/Google Slides).

Resources Provided

- Presentation Template (PowerPoint/Google Slides)
- Executive Q&A Guide (PDF)

3. Project Timeline

6 Hours Total :

- **Hour 1**: Data Maturity Assessment and Challenge Identification
- **Hours 2-3**: Design of the Data & AI Governance Framework
- **Hours 4-5**: Implementation Plan Development
- **Hours 6**: Final Presentation Preparation

4. Supplemental Resources & Documents

1. Spotify Case Study Background
   - Provides context on Spotify's operations, data usage, and challenges.
2. Data Maturity Assessment Template
   - A structured guide to help assess the data maturity level of Spotify.
3. Governance Principles Guide
   - Key principles and best practices for data governance.
4. Compliance Checklist
   - A comprehensive checklist covering GDPR, CCPA, and other relevant regulations.
5. Roles Template
   - A template for defining roles and responsibilities within Spotify's data and AI governance framework.
6. Organizational Models Overview
   A summary of different organizational models for data governance.
7. Tech Tools Overview
   - A guide to choosing the right tools for data management, AI readiness, and governance.
8. Pilot Implementation Template
   - A step-by-step guide to planning the pilot phase of the data and AI governance implementation.
9. Presentation Template
   - A customizable slide deck for presenting the final project to stakeholders.
10. Executive Q&A Guide
    - A guide to help anticipate and prepare for questions from Spotify's executive and AI leadership team.

5. Success Criteria

Your project will be evaluated based on:

- **Practicality**: The feasibility and relevance of your data and AI governance framework in the context of Spotify.
- **Compliance**: How well your framework addresses GDPR, CCPA, and other regulatory requirements.
- **AI Trust & Business Impact**: The potential positive impact on Spotify's operations, including safer AI reuse, cost savings, efficiency improvements, and risk mitigation.
- **Communication**: Your ability to clearly and effectively present your ideas and defend your decisions.

6. Where to get the business case

You can download the business case here:

- *Spotify - Data & AI Governance Business Case* : aws or local.
